<b>Version</b>	Version 2
<b>Policy Type</b>	Exec
<b>Circulation</b>	Internal
<b>Date Authorised</b>	26 March 2021
<b>Authorised By</b>	Exec

At DIS, we aim to promote positive mental health and wellbeing for every member of our school community. We pursue this aim using both universal, whole school approaches and specialised, targeted approaches aimed at vulnerable students.

This policy has been written following advice from Keeping Children Safe in Education (DfE 2021) and Mental Health and Behaviour in Schools (DfE 2018)

### **Aims:**

- Promote positive mental health in all staff and students
- Increase understanding and awareness of common mental health issues
- Alert staff to early warning signs of mental ill health
- Provide support to staff working with young people with mental health issues
- Provide support to students suffering mental ill health and their peers and parents/carers

This policy also supports and works in conjunction with the Behaviour policy and Child Protection and Safeguarding policy.

Mental health and wellbeing affect how we feel, how we think and how we behave. All children and young people need to:

- Be able to connect with others by participating in groups and teams
- Know they are capable and able to achieve
- Know they count in their world and can contribute to their community
- Know they have courage and can manage risks appropriately

The mental health of children and young people, adults in school, parents and carers and the wider whole school community will impact on all areas of development, learning, achievement and experiences.

At DIS we encourage our students to:

- Be able to form and maintain relationships with others
- Be able to enjoy life
- Be open to learning
- Be able to develop a sense of right and wrong
- Be adaptable to change and other's people expectations
- Be able to develop the resilience to manage ordinary setbacks
- Be able to talk about their emotions

At DIS we ensure that the whole school community:

- Is involved in promoting positive mental health and wellbeing
- Is valued for the role it plays in promoting positive mental health and wellbeing
- Contributes towards the ethos of the school

### **Roles and Responsibilities**

DIS is committed to safeguarding and promoting the welfare of children and young people, including their mental health and emotional wellbeing, and expect all staff and volunteers to share this commitment.

In line with the UN Declaration of Human Rights and the CIS commitment to Child Protection and Student Wellbeing, we recognise that children have a fundamental right to be protected from harm and that pupils cannot learn effectively unless they feel secure. We therefore aim to provide a school environment which promotes self-confidence, a feeling of self-worth and the

knowledge that pupils' concerns will be listened to and acted upon. In order to support this the school has created a designated Safeguarding Team – see Appendix 1

#### Children

- To treat others with respect always
- To support and listen to their peers
- To speak openly and honestly about things that are troubling them
- To know who to go to if they or someone they know has a problem

In order to provide our students with the opportunity to improve the levels of wellbeing within the school community, student-led teams are developed to drive student-focused wellbeing initiatives.

#### All staff

- To ensure that all policies are followed throughout the school both in and out of class.
- To have high expectations of the children with regard to supporting student's mental health and wellbeing.
- To model expectations consistently, treating each child fairly, with respect and understanding.
- To share information regarding wellbeing concerns with parents and carers.
- To liaise with the Pastoral Team if concern continues or escalates further
- To follow actions set out by the Pastoral team in line with the results of the KHDA Wellbeing Census

#### The Wellbeing Team

- To provide students with a known support network beyond the classroom
- To refer concerns to the relevant person within school e.g. DSL or School Doctor
- To develop and oversee actions based on the results of the KHDA Wellbeing Census
- To keep records of all reported serious concerns
- To make external recommendations where appropriate and possible

#### Designated Safeguarding Leads

- Responding promptly to calls for assistance in high risk cases and safeguarding and child protection issues
- Making referrals to appropriate agencies
- Summoning immediate medical help if required
- Informing parents and carers

#### Head Teacher & Senior Leaders

- To ensure the health, safety and welfare of all children in the school.
- To implement the school mental health and wellbeing policy consistently throughout the school, and to report to the board, when requested, on the effectiveness of the policy.
- To implement the policy by supporting staff in applying the policy consistently.
- To oversee records of all reported serious concerns.

#### Parents

- To share relevant information with school regarding any concerns or issues that may have an impact on the student's wellbeing in school
- To support the school by following advice from staff in school

## School Doctor

- To work closely with students, parents, carers and staff, offering support and advice on a range of medical issues
- Play a vital role in children's development, carrying out immunisation and screening programmes, managing medical conditions and acting as a point of contact on child protection issues
- Maintain accurate records of all support given and share information of any disclosures made with the relevant staff

## Procedures

The most important role school staff play is to share any concerns with the Safeguarding Team and follow the procedure outlined in the 'Wellbeing at DIS' flow chart – see Appendix 2

## Confidentiality and information sharing

- Students may choose to confide in a member of school staff if they are concerned about their own welfare or that of a peer.
- Students should be made aware that it may not be possible for staff to offer complete confidentiality.
- If a member of staff considers a student is at serious risk of causing themselves harm, then confidentiality cannot be kept.
- It is important not to make promises of confidentiality that cannot be kept even if a student puts pressure on a member of staff to do so.
- If a student confides in a member of the school medical team then they are expected to speak to the DSL.
- Confidentiality will be maintained within the boundaries of safeguarding the student.
- The DSLs, after discussion with the director, will decide what information is appropriate to pass on to parents/carers.
- Parents/carers are encouraged to disclose to the school any known mental health problem or any concerns they may have about a student's mental health or emotional wellbeing. This includes any changes in family circumstances that may impact the student's wellbeing
